SPLATTER

① STEM VALVE

Control airflow from compressor for splatter, spray and air purge. Features adjustment markers for precise airflow volume control.

② GREASE PORTS

Fill both lines with grease to clear material from manifold for storage up to 2 weeks without flushing.

③ HANDLE LOCK

Allows VA1 sp to stay locked & secure when not in use.

④ A + B LINE HOOKUPS

⑤ ADJUSTABLE HANDLE

90° Range of motion. Extend to full vertical position to cut off spray (air purge), lower handle to resume. Can be assembled for right or left handed use.

⑥ AIR LINE HOOKUP

⑦ COMFORT HAND GRIP & ARM HANDLE

JUST THE TIP...
THAT'S ALL
YOU NEED!

ATTACHES TO VEE-MANIFOLD

• Spray multiple patterns with a single gun using tip

• More accurate & specific spray pattern application

• Spray faster and longer thanks to the lightweight, ergonomic design

*Color of VA1® may vary (blue or silver)
